Citizenship By Investment (CBI)

Through this step, you and your family become a citizen of another country through an investment plan in real estate. You can get a second passport and become a legal citizen of an additional kingdom. You can receive the application approval without foregoing the former citizenship. Therefore, you may retain the former passport and the new passport.

Residency By Investment (RBI)

Residency by Investment allows you to live, study, work, and enjoy other countries' healthcare systems with a passport of origin as a resident. However, each country has a separate rule and duration of providing the Residency, which must be completed accordingly before acquiring the Residency.
