### Citizenship By Investment (CBI)

Through this step, you and your family become a citizen of another country through an investment plan in real estate. You can get a second passport and become a legal citizen of an additional kingdom. You can receive the application approval without foregoing the former citizenship. Therefore, you may retain the former passport and the new passport.

### Residency By Investment (RBI)

Residency by Investment allows you to live, study, work, and enjoy other countries' healthcare systems with a passport of origin as a resident. However, each country has a separate rule and duration of providing the Residency, which must be completed accordingly before acquiring the Residency.
